Commitment to the Paris Agreement

ESSA Sales & Distribution S.A. recognizes the urgent need for collective action to address climate change. While only governments can formally ratify the Paris Agreement, we are committed to aligning our business strategy with its objectives of limiting global warming to well below 2°C and pursuing efforts to restrict it to 1.5°C.

To support this commitment, we will:

- Set and pursue science-based targets to reduce greenhouse gas emissions across our operations and value chain
- Invest in energy efficiency, renewable energy, and low-carbon solutions
- Collaborate with suppliers, partners, and customers to reduce Scope 3 emissions
- Disclose our progress transparently in line with international reporting standards (e.g., GRI, CDP, CSRD)

Through these actions, we aim to contribute meaningfully to the transition to a low-carbon economy and to build long-term resilience for our business and stakeholders.
